Zelgor Special Announcement

Hello Zelgor Supporters!

After many months of negotiations and due diligence, we have an exciting announcement:

Zelgor has acquired Spellbook Studio, creators of The Infinite Black & The Infinite Black 2.

With a community of 120,000 players, we believe this is a tremendous opportunity for Zelgor to own and operate a franchise with a devoted following. Through this acquisition, Zelgor now expects to generate enough revenue to make our ongoing operations sustainable.

The Infinite Black franchise is a space combat Massive Multiplayer Online game (MMO) and was one of the first MMO's to be released on Android in 2011. Players build, collect, manage, and battle their fleet of spaceships as they fight for control of The Infinite Black. Both games are free to play on mobile and generate revenue through the sale of virtual "credits" which can be used to purchase ship upgrades.

What does this mean for the Noobs? It means we now have a player base that we expect to use to support the launch of Noobs in Space. It means our team can gain experience working together to run a live game leading into the Noobs in Space release. We hope this will also allow us to bring in additional resources to ensure the successful launch of the Noobs IP.

I am thrilled to see this deal cross the finish line and what this could mean for the future of Zelgor. Thank you for all your support. None of this would've been possible without you!

So what are you waiting for? Go download The Infinite Black 2: <https://linktr.ee/Zelgor>
